

Postdoctoral position Available at IISC

A postdoctoral position is available to work on a DST sponsored project in the area of biomolecular complex and nanomaterials. The project involves doing large-scale Molecular dynamics simulations of the complex of DNA and synthetic polymer.

Expertise and familiarity using first principles molecular dynamics (MD) and Monte Carlo simulation (MC) involving DNA/proteins are preferred.

Desired qualification for Postdoctoral Scholar: Phd in Physics/Physical Chemistry/Chemical Eng/Computer science/Materials Science.

People with MSc and having experience with atomistic MD simulation may also be considered for Research Assistantship.

Initially the position is for 1 year and can be extended up to 3 years. We have access to excellent computational facilities and IISc has a very good working environment. Accommodation can be made available in the IISc postdoc hostel. Salary as per DST guidelines.

Please send your CV to (email preferable)
